Jayapriya Medical Foundation (JMF) is a non-profit organization dedicated to providing high-quality and affordable eye care services to rural communities in North Karnataka.

Dr. Ananth Huilgol born in Gadag in October 1925, was the 3rd son of Dr Venkatrao Huilgol. He pursued his MBBS & DOMS from Grant Medical College, Mumbai. He was the 1st Ophthalmologist in North Karnataka. He started the Karnataka Netra Rakshak Society & was the president of the same.

In 2002 under the leadership of Dr. Shrikrishna G. Nadgouda, JMF began as a small initiative aimed at bringing vision care to the underprivileged and underserved segments of society. For over 18 years now JMF has reached new heights under Dr. Venkatram Katti, overseeing various projects sponsored by National and International organizations.

Over the years, JMF has expanded its reach to more than one crore people, primarily residing in rural areas across Northern Karnataka, including districts such as Dharwad, Haveri, Belagavi, Gadag, Bagalkot and Koppal.

The organization has conducted over 1800 free medical camps, providing eye examinations to over 11.5 lakh patients. Additionally, JMF has performed more than 75,000 sight-restoring cataract surgeries, distributed free medicines, and delivered other essential eye care services to over 7.25 lakh individuals in underserved communities. Importantly, all these services have been provided at zero cost to patients.

Donations to organisation are exempted from tax under sections 80G and 12A of the Income Tax Act. Moreover, the organization is registered under the Foreign Contribution (Regulation) Act (FCRA) for receiving foreign funds and is also registered under the Ministry of Corporate Affairs for undertaking Corporate Social Responsibility (CSR) activities.

Through its dedicated efforts and commitment to serving the community, Jayapriya Medical Foundation continues to make a meaningful impact on the lives of rural population by improving access to essential eye care services and restoring vision to those in need.

VISION & MISSION

VISION

To be a centre of excellence in eye care, research, training, and preventive medicine, offering advanced, affordable, innovative and comprehensive eye care services with the latest technologies under one roof, accessible to all segments of society in a friendly and safe environment.

MISSION

- 👁️ To provide and maintain customer-focused high-quality health care services in a professional environment.
- 👁️ We are committed to achieving and maintaining excellence in health care services.

CORE VALUES

- 👁️ Render the highest quality of eye care services to patients of rural and urban communities.
- 👁️ Endeavour to achieve excellence in services rendered.
- 👁️ Continuous adoption of the latest technology and best medical practice methods.
- 👁️ Focus on establishing long-term associations with people, patients, employees and other stakeholders.
- 👁️ Maintain transparency and risk management.
- 👁️ Strong accountability in a flexible and streamlined process.

PIONEER : Dr. ANANT HUILGOL

Born in Gadag in October 1925, he was the 3rd son of Dr Venkatrao Huilgol. He pursued his MBBS & DOMS from Grant Medical College, Mumbai. He was the 1st Ophthalmologist in North Karnataka. He started the Karnataka Netra Rakshak Society & was the president of the same. Many people here benefitted through this organization. He was a philanthropist who conducted many free eye camps. He started the Citizen's Forum & worked relentlessly for the welfare of the people.

Despite losing his parents at an early age, he pursued his education with remarkable determination, driven by a desire to make a meaningful

impact. He has conducted numerous surgical camps and performed surgeries in Karwar, Dandeli, Gadag, and nearby areas, often with just one staff member by his side. His father, a freedom fighter and Ayurvedic doctor, was a source of inspiration and legacy.

Dr A V Huilgol was truly a visionary who has extensively served the community under his profession.

FOUNDER: DR. SHRIKRISHNA NADGOUDA

- MBBS** : KIMS, HUBLI
- MS OPHTHAL** : JJMMC, DAVANGERE
- DOMS** : College of Physicians and Surgeons MUMBAI
- FELLOWSHIPS** : Ophthalmic Institute KIRYU -Japan.
National Eye Institute - Singapore.
Shepherd Eye Institute, Santamaria California
- AREA OF EXPERTISE** : Cataract and Refractive surgeries,
Glaucoma treatment, Squint and Oculoplastic surgeries.

Dr. Shrikrishna G Nadgouda, a renowned ophthalmologist with extensive experience of 36 years in

the field of ophthalmology, has made significant contributions throughout his career. During the early 2000s, Dr. Nadgouda took the initiative to establish free medical camps, including surgical treatments, in the Dharwad district. This philanthropic endeavour aimed to extend essential eye care services to rural communities.

Dr. Shrikrishna Nadgouda's professional journey has been marked by remarkable achievements over the past three decades. Despite his accomplishments, he remains modest and unassuming, embodying a humble attitude that speaks volumes about his character. His inspirational demeanor will undoubtedly continue to motivate people for years to come.

OUR DEDICATED TEAM OF DOCTORS

Dr. Venkatram Katti

Chief Consultant and Surgeon
at Jayapriya Eye Hospital.

- MBBS** : AIMS, Bellur
- MS OPHTHAL** : KIMS, Hubli
- Followships** :
- PHACO Fellowship - Laxmi Eye Institute, Panvel
 - Small incision cataract surgery and training in the organization of camp and outreach activities in globe eye hospital, Bangalore
 - Short term training in ophthalmic diagnostics,
 - LV Prasad Eye Institute, Hyderabad,
- Area of Expertise** : Advanced cataract surgery and phacoemulsification including premium IOLS with proficiency in topical Phaco surgery
- Professional Experience** : 18 Years

Born on September 27, 1976, Dr Venkatram Katti hails from Davanagere, a small town in Karnataka. An extinguished ophthalmologist, Dr Venkatram Katti comes with 18 years of expertise in varied fields of ophthalmology. He has performed more than 60,000 eye surgeries. His passion for healthcare and philanthropic personality has earned him accolades not just among peer circles but across all north Karnataka districts. As head of Jayapriya Eye Hospital, he has organized and conducted thousands of free eye camps in remote rural areas of North Karnataka to help poor people and conducted many thousands of eye surgeries free of cost for the patients. He has given Jayapriya Medical Foundation, international recognition by getting lots of international grants through FCRA, got ties up with international charitable organizations like Combat Blindness International, Rotary International etc., and local organizations like NPCB, LIC Golden Jubilee Foundation, Canfin Homes, Round table India trusts etc.

He is now the Chief consultant Ophthalmic Surgeon at Jayapriya Eye Hospital, Hubli

Dr Venkatram Katti is a team player and always places the efforts and achievements of his team members before him. He has trained more than 100 ophthalmic surgeons across the country in SICS and Phaco surgeries. Through his leadership and tireless efforts, he strives to make quality eye care accessible to all, ensuring that no one is left behind in their pursuit of a healthy vision.

OUR DEDICATED TEAM OF DOCTORS

Dr Anuja Desai

GRATITUDE AND RECOGNITION: JECO FOUNDATION

We extend our deepest gratitude to Jeco Foundation for their invaluable partnership and unwavering support. Their visionary leadership serves as a beacon of hope, guiding us towards a future where vision is not merely a privilege but a fundamental human right. We are grateful to Jeco Foundation for supporting JMF with 1400 sites restoring cataract surgery this year, comprising of free eye camps and free eye surgeries on the under privileged patients.

Impact Story MABHUSAB PINJAR

It's wonderful to hear about Mabhusab's positive experience from the eye surgeries. His ability to regain clear vision after facing challenges with his blindness like foregoing his driving job is a timeless example of regaining lost hope.

Having both eyes operated successfully, Mabhusab has now regained independence and resumed his work confidently. Additionally, being able to walk without any one's assistance further enhances his freedom and quality of life.

It's also heartening to know that Mabhusab's son, Moulasab, is supporting his parents during this time, despite facing financial constraints. Community initiatives like free eye camps play a vital role in providing essential healthcare services to individuals who may not otherwise have access to them.

Pediatric Cataract Surgery

As the saying goes **children are our future**, we at JMF help children with cataract to see the growing world clearly with excellent cataract surgeries.

Sahana's Eye Surgery Journey

Sahana, a 10th standard student and resident of Mallapur village, Ron taluk, Gadag district, experienced a life-changing incident. While playing outside, a cow attacked and hit her head. An initial hospital visit revealed no apparent problems. However, a few years after the incident, Sahana began experiencing blurred vision.

Impact on daily life: She couldn't see what her teachers wrote on the board and had difficulty going outside. Birth history: Non-consanguineous marriage. Health history: Frequent hospital visits until age 5 for fever, cold, and cough. Medical condition: Known case of epilepsy, currently under treatment.

Sahana attended a camp organized by Jayapriya Hospital. The team brought her to the main eye hospital in Hubli for a thorough examination. She underwent right eye cataract surgery (phaco-foldable aspheric monofocal IOL implantation) at Jayapriya Medical Foundation, Hubli. This IOL was chosen bearing in mind her age, health, and financial status. JMF doesn't hesitate to go out of the way to provide the best services, keeping cost secondary.

Post-operative findings: Vision 6/9, near vision N9. Her entire family was very happy, becoming emotional with teary eyes. Thanks to our International Donor, Sahana can now have a bright future.

A Day in a Vision Center of JMF

In association with CBM, JMF has established 5 VC's in past 1 year covering 3 districts. through Amminbhavi VC, Bankapur VC, Nargund VC, Anniger VC, Belatti VC. This a part from 2 other VC Funded by self.

- 1) Vision Testing
- 2) Eye Examination
- 3) Refraction
- 4) BP Checkup
- 5) RBS Testing
- 6) Medicine & Spectical Distribution
- 7) Tele Consulting
- 8) Counselling for Eye Surgery
- 9) Arranging Transportation to base hospital.
- 10) Orientation of Patients on Insurance Coverages disability registration and social benefits process.
- 11) Eye Health Education

VC JOURNEY SO FAR

ILLUMINATING INSIGHTS : A TRANSFORMATIVE VISIT FROM COMBAT BLINDNESS INTERNATIONAL

We extend our heartfelt gratitude to CBI for their continued support through fifth consecutive year.

It was truly an honor and a privilege to welcome Mrs. Reena Chandra, President and Executive Director of Combat Blindness International (CBI), to Jayapriya Medical Foundation (JMF) for a profoundly enlightening visit.

Her presence brought a fresh perspective and renewed energy to our organization as we embarked on a journey to showcase the impact of our work and the opportunities for partnership in advancing eye healthcare. A walk through Jayapriya's state-of-the-art facilities, interactive demonstrations of cutting-edge technologies, visit to our vision centers, and engaging discussions with our team of experts provided CBI with a comprehensive understanding of our multifaceted approach to eye care. Mrs Reena had the privilege of hearing firsthand accounts of lives transformed by our interventions. From restoring sight to individuals afflicted by vision loss to empowering communities through vision screening programs, each story served as a poignant reminder of the profound impact of our work on individuals and communities alike.

CBI expressed their admiration for our organization dedication to excellence and innovation in eye healthcare.

INITIATION OF COPS PROGRAM

An women empowerment initiative "DIPLOMA in Ophthalmic Assistant" from Jayapriya Medical Foundation in association with Combat Blindness International, Madison, USA.

Girls of families from poor economic background will benefit from this program. "The 'Diploma in Ophthalmic Assistant' program from Jayapriya Medical Foundation is a transformative women empowerment initiative designed to uplift and empower girls from economically disadvantaged backgrounds, providing them with the skills and opportunities to achieve self-sufficiency and financial independence, and helping them break the cycle of financial constraints through education and professional growth."

We started with Training a batch of 15 students and it is going exceptionally well.

These are the girls who have not had an opportunity for further education due to financial constraints. By the end of the training period, they are going to be self sufficient and financially independent.

A VISION FOR THE FUTURE: WITH VOLKART FOUNDATION INDIAN TRUST

With a deep-rooted passion for healthcare and a profound commitment to the betterment of vision care, Volkart Foundation Indian Trust (VFIT) brings a wealth of experience and enthusiasm to our cause. Through their generosity and foresight, we are poised to redefine the boundaries of possibility, ensuring that every individual has the opportunity to experience the gift of sight and the beauty of a world illuminated by clarity and vision. VFIT has been generous to support JMF with 1000 free Cataract surgeries on the underserved population of North Karnataka.

POLICE JYOTI

ACTIVITIES :

- 👁️ Free eye care camp organised across various police station.
- 👁️ Cataract Glaucoma & Other Eye conditions were screened.
- 👁️ Spectacles were distributed.
- 👁️ Free eye care services were given for police personnel and their families
- 👁️ Over 200 police personnel and there families were screened

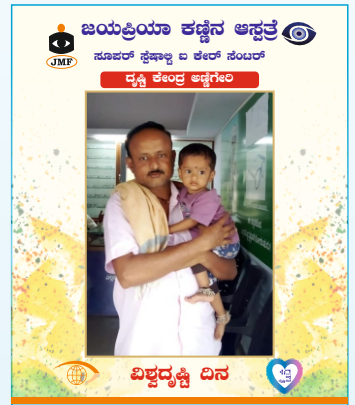

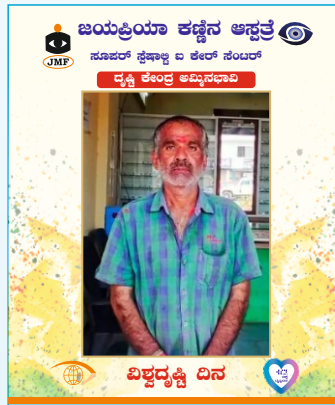

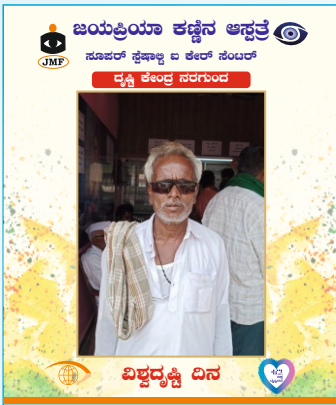

As part of social services, we gladly give eye care services to police department.

STRIKE A POSE CLICK WITH JOY

OCTOBER 10 2023,
THEME : LOVE YOUR EYES AT WORK

On the occasion of World Sight Day we had organised a **PHOTO BOOTH** at our base hospital and at our vision centres. Patients who visited our hospital made memories by clicking photos. They were also educated about eye care.

14TH NOVEMBER

WORLD DIABETES DAY

We had organised free diabetic check-up camps covering some of the most populous areas of Hubballi.

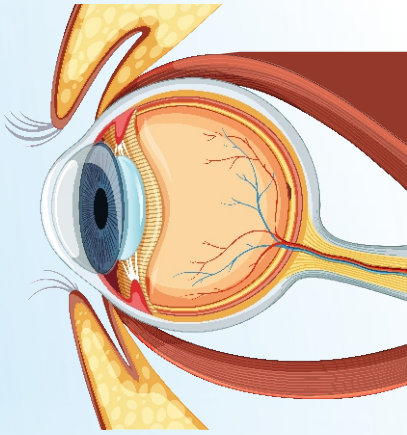

IMPACT

Our hospital has screened over 1,000 patients, while our Vision Centers have assessed over 1,500 individuals, performed over 200 cataract surgeries, and provided care for more than 300 diabetic patients and 75 cases of diabetic retinopathy, reflecting our extensive dedication to eye health and wellness.

We also had free diabetic check-up covering areas under Haveri, Dharwad and Gadag districts.

In association with IMA Hubballi free Diabetic and eye check-up was held on 16th November at IMA House.

GLAUCOMA

**“Not every Eye Disease is visible;
one such is Glaucoma”**

Hence creating awareness is important

Glaucoma Awareness Week : MARCH 12th-14th 2024

We had organized an awareness talk on glaucoma at KIMS nursing college & also conducted a free glaucoma check-up at our hospital.

**About 50% of
Glaucoma Cases
go undetected.**

We have proudly
educated over 1000 patients
and conducted screening for more than
200 patients, advancing our commitment
to better health and well-being in
our community.

NEW VEHICLE ADDITION

Introducing our latest addition, a vehicle designed to enhance patient care and ensure swift, seamless transport within our hospital network & our all vision centres.

OUR VEHICLES

Our hospital vehicles are equipped with advanced technology and essential medical supplies, ensuring swift and efficient care delivery wherever it's needed. JMF also possesses a mobile Eye care Van for at the doorstep.

GREEN LASER EQUIPMENT (NEW INSTRUMENT)

Jericho is a Multispot Green Laser photo coagulator system with Advanced optics in integrated Laser Slit Lamp. Has been made compatible for All three delivery systems namely integrated laser slit lamp (Multispot), laser indirect ophthalmoscope, Endo Probes. Is designed to Treat Retinal Disorder Using A single spot and also with different predetermined patterns.

From routine treatments to complex interventions, Jericho provides the versatility and performance required to meet diverse clinical needs.
